LIVE WEBCASTS ON PERISCOPE

If you are unable to attend an in person meeting, you may view the meetings live via Periscope on your smart device, laptop, or desk top computer. You must first download the Periscope app then create a screen name (other than your real name) and email blcox@uabmc.edu the information before the meeting date. The web based meetings are live, and you may search for "Bariatric Coordinator" or "UAB Fresh Beginnings" and request to follow the group. This is a closed group so you have to ask permission to join. In the event of technical difficulties beyond our control, please plan to watch or attend more than one support group meeting if you need credit for attending prior to surgery. The meetings are totally free and designed to support you during your weight loss journey. You are welcome each month to attend and invite others who are interested in learning more about Bariatric Surgery. Thanks!
